THERE IS NO OCTOBER GENERAL MEETING ON THE THIRD FRIDAY !!

Saturday October 21st

Bring a covered dish. Starts at 5PM

Meeting TOPIC Schedule REVISED....

NOW, the **September General Meeting**, Sept. 15th will be a presentation and discussion on ADS-B by member Steve Glaeser.

(meeting moved up because of Halloween party in October)

Automatic Dependent Surveillance – Broadcast (ADS–B) is a surveillance technology in which an aircraft determines its position via satellite navigation and periodically broadcasts it, enabling it to be tracked. The information can be received by air traffic control ground stations and can also be received by other aircraft to provide situational awareness and allow self separation between aircrafts. “It should be a riveting discussion. I plan to cover the technology and requirements. I also plan to review a few different manufacturers of ADS-B solutions to show the different approaches to ADS-B. Lastly, I will arm the audience with the right questions to ask as they are looking for an ADS-B solution along with my recommendation on when to act.” - Steve
