

President's Corner April 2020

The days are getting longer, spring has sprung, and we have all been asked to stay at home and practice social distancing.

Unfortunately, covid 19 may be the most contagious disease in all of our lifetimes, do not take that lightly! The entire state of Pennsylvania has been placed under a stay at home order by the governor. However, Cedar Creek Park is open in a very limited capacity.

Our flying field is open for use, but none of the restrooms in the park are open. Since we are under a stay at home order, I cannot guarantee that the runway will be in useable condition. If any member wishes to cut grass to keep the field in shape, you are responsible to provide your own personal protective equipment (sanitizing wipes, hand sanitizer, gloves etc.). Consider that the handles of the mowers must be sanitized. I recommend that you bring your own earplugs or sanitize the clubs before using. Don't forget to clean the handles of the blower for cleaning the mowers after use.

While at the field, do not touch anyone else's equipment unless you are prepared to sanitize your hands immediately after.

Please follow all social distancing guidelines to protect yourselves and your families. You may be healthy and recover if you catch this horrible virus, but someone that catches from you may not be so lucky.

Hopefully, this crisis passes sooner rather than later and we can all get back to normal.

God Bless all of you and be safe,
Mike Eiben
