

# May 2019 President's Corner

Greetings club members and RC aircraft enthusiasts.

May has arrived and the flying season is ready to go into full swing.

Please join us on Friday, May 3rd, at 7 pm for our monthly meeting at the field, afterwards we are having our first Night Flying event of the season. We are permitted to stay at the field until midnight.

Saturday, May 4th will be our annual work party at the field. We are planning to roll the runway and pit area that day. Other projects include applying a protective coating to the new lean to shelter. We will be replacing 6 airplane starting benches. If we have enough help we may also move some of the concrete blocks from in front of the handicap walkway.

I want to take a moment to thank everyone for all the positive support that I have received since becoming president of MVRC. This job is time consuming and has its challenges, but i feel that I have grown from the experience. I feel a great sense of pride when I tell someone that I am the president of this awesome club.

Thank you,

Mike Eiben
